

New Reception Intake

Dear parents/carers,

We do hope you are well and you and your child are looking forward to joining our school next year.

We were all delighted to hear from the Education Minister earlier this week that Government hopes to open schools to all children in September if conditions are right. The present guidance we are working with will need to be altered for schools to open fully. We hope we have this new guidance as soon as possible so we can confirm our present plans for transition for your child. If the new guidance does not allow us to transition in the way we have planned we will of course contact you with revised plans.

Please find a link below to a GCC webpage that contains much useful information for children transitioning to school. <https://www.gloucestershire.gov.uk/education-and-learning/getting-ready-for-school> I hope some of the links prove useful for you.

With kind regards,

Zoe Avastu

Headteacher
