

Remote Learning Survey Results

29th January 2021

Dear parents/carers,

Thank you to all parents who completed our recent survey, which asked for feedback on the remote learning provided by school. It was lovely to read all the positive and constructive comments you had written and hear how helpful you have found the learning provided by teachers. We appreciate you taking the time when we know you are busy.

We had 70 responses to the survey out of 104 families in the school. The overall rating of how you felt about remote learning provided was 4.5 on a 1-5 scale. We were delighted to hear this as the teachers have/are working hard to provide meaningful learning while we cannot be together on site.

Live Lessons via Zoom

It was clear to see that children were finding their zoom lessons with teachers extremely helpful. They not only provided teaching but also a connection for children to be able to see their teachers and classmates in these difficult times. Zoom sessions have been timetabled so that no two classes have a zoom lesson at the same time. They have been timetabled carefully to prevent overlap so families with children in different classes will be able to attend. Unfortunately, this means we are not able to add in more or longer zoom lessons. We have looked at how we can utilise planned Zoom sessions fully and teachers have tried to implement this where they can.

Work

It was great to see that parents were finding the timetable and schedules provided useful to provide a structure to the day. It was clear to see that children and parents were enjoying the range of subjects and activities teachers were setting.

Most parents felt the work was enough but a few parents explained they were struggling with completing it all. We understand that everyone's situations and circumstances are different. We do not want the quantity of school work to be a source of stress for families. If your family is struggling with the quantity of work, please contact your child's teacher. They will work with you to prioritise the lessons and work to complete. Please use the following email addresses to contact teachers:

Class 1	Mrs Parsons	class1@eastington.gloucs.sch.uk
Class 2	Miss Smith	class2@eastington.gloucs.sch.uk
Class 3	Mrs Burns	class3@eastington.gloucs.sch.uk
Class 4	Mrs Rome & Miss Pates	class4@eastington.gloucs.sch.uk
Class 5	Mrs Redpath	class5@eastington.gloucs.sch.uk

Feedback

Teachers are working hard to get feedback to children as quickly as they can. Teachers will aim to give more detailed feedback to the child based on their work submitted at least once a day and give acknowledgement of other subjects. It appears children have felt motivated by teacher feedback. Children have enjoyed reading the positive comments teachers have provided on their work.

Teachers so far have provided lots of feedback on children's work. Feedback from teachers will be left in a private comment attached to the piece of work the child has returned. In order to view this comment, you will need to click on the work, which the teacher returned. Google classroom does not always notify you that a teacher has left a comment or feedback. Children need to look back at the work they sent it to see the comments. If you are struggling to view your feedback, please contact your child's teacher.

We understand 5pm deadline can be tricky for some parents. If this is the case, please speak to your child's teacher, they will work with you to come up with a solution for this.

Pre-recorded lessons (ie. White rose maths and oak academy)

There were many positive comments on the use of pre-recorded lessons (ie. White rose and oak academy). Whilst we understand they are not as good as live lessons, they are used because they cover the same content as children would in school. This allows children to carry on learning same content as they would if they were in school.

The links/content of pre-recorded lessons which we share will be appropriate to the age of children. Lessons will signpost parents to specific online content within websites such as Vimeo, which host White Rose Hub math's tuition clips, and YouTube, which host Joe Wicks work outs etc. Parents & carers do need to be aware that children can click on other content within these websites, which will not be appropriate for their child – I know most of you understand this but it is always good to think about online risks for children. When in school children, have been taught about online safety and the importance of sharing anything, which worries them online, so do encourage them to share with you too.

We understand times are tough at the moment. The pandemic has had a significant impact on everyone but in many different ways. Everyone's circumstances are very different, and we appreciate that. Whatever your personal circumstances, we know you will be doing a great job to support your children. If you are finding remote learning hard, please contact your child's teacher who will work with you to help make it work for your family.

With many thanks,

Zoe Avastu
Headteacher
