

Class 5 RE curriculum

3.3.2022

Dear parents/carers,

As part of the planned curriculum, children in Class 5 will be undertaking a unit of work in RE this term on 'How faith helps people when life gets hard'. We will be encouraging Children to ask questions about life, death and suffering. Obviously, some of these 'big questions' do not have easy answers.

We will be looking at ways in which Christians, Hindus and Non-religious believers use their faith in difficult times, looking at the positivity of life and comparing and explaining how their views on death are similar or different.

We will be guiding the children through a range of activities which will promote their thoughts and beliefs, and although not always providing answers, will support them in their journey.

Through studying this unit, your child may well come home with questions they wish to talk with you about and we ask that you support them in the usual way.

With many thanks,

Paul Barnett
C5 teacher
